FORGIVE MY CARING

I care about you so I will do my best,
To squeeze you firmly – to flatten out your breast,
Don't think me cruel it's my job to compress,
It's not my intention to cause undo stress.
It's not my intention to cause you pain,
I have to be thorough there's so much to gain.
The radiation dose I'm able to reduce,
We're getting more info so we can produce,
Films of high quality and a reading that's true,
Since your breast health is the important issue,
So forgive my caring,
I can't help it, I do!
